Simple Network Consulting, a leader in providing technology to the SMB market is currently seeking an Infrastructure Specialist. The Infrastructure Specialist will be responsible for assisting the Network Engineers with completion of projects, and ongoing maintenance of said projects. This candidate will be a significant contributor to our team, and will need to have working knowledge and experience in the following technical items/aspects:

- Microsoft
 - Server 2008/2012 – SQL-Exchange 2010/2013 – Active Directory
- Cisco
 - Routing – Firewalls –VoIP – Switching
- VMware
 - Entire Suite

This candidate will need to meet the following requirements:

- MCSE, CCNA, VMware and Citrix certifications are desired
- Manages time well in an ever changing landscape
- Multitasking where many projects at one time will be occurring
- Excellent Communication skills, both verbal and written, are required
- Knowledge of the sales process is a plus, but not required
- Dependable vehicle with proof of continuous insurance coverage

This candidate will be expected to continue their education while employed with us to maintain their certifications, and be up to date with cutting edge technologies. Communications with the project planner and the client to provide a fluid transition to project completion, and ongoing maintenance is also required. Typical hours of operation are 7AM CST – 7 PM CST, with some evening, weekend and holiday work. Travel will be required throughout the week, with some overnight stays. A generous Retirement Plan, Health Care Plan, Mobile Phone a fun and Professional Staff and a New Office Building await you!

Candidates that believe they are capable of filling this position are encouraged to apply. Salary is dependent on experience. To apply, click [here](#). Include a cover letter, resume and references.
